

Low-Emission School Bus Testing

Objective

Determine emissions levels of best available, low-emission school buses (International Green Diesel and Blue Bird Natural Gas) at NREL ReFUEL facility

Project Information

Duration: 2 months beginning Nov. '05

Project Lead: NREL (B. Hayes)

Partners: International Truck, John Deere, A-Z Bus Sales

Accomplishments

- Have established the list of emission constituents to be measured
- Buses scheduled for testing in late fall '05.
